

## GENERAL INFORMATION

### Trade name

Emsodur N

### Type of product

Deflashing media based on polyamide

### Applications

Deflashing of thermoset parts

### Methods

Blast wheel (turbine), jet blasting, injector method

### Manufacturer

Emsodur AG

## DEFLASHING WITH EMSODUR N – YOUR BENEFITS

**Less rejects and inspection** due to high dimensional stability and exact cubic / cylindrical cut (*Tolerances of +/- 10%*)

**Less static charging** of deflashing media during the process due to double antistatic treatment (*in the compound and on the surface*)

**Reduced deflashing media consumption and costs** due to extreme long lasting deflashing media (*due to special recipe*)

**Less handling time** for cleaning and refilling the machine due to high impact strength and longer lifetime

**Overall reduction of your total operating costs!**

## Emsodur N – Standard Products

Size (mm)	Shape	Colour
0.20	cylindrical	natural
0.30	cylindrical	natural
0.40	cylindrical	natural, red
